| 5  | Development of primary / High School infrastructure.                                     |
| 6  |                                                                                          |
| 7  |                                                                                          |
| II | Any major complaint brought to notice of the Visiting Officer:                           |
|    | The major complaints brought to notice pertain to, PHE/R&B/P.D.D./R&B                    |
| ①  | Need for improvement is power supply and infrastructure (Receiving Station/Transformers) |
| ②  | Need for improvement of Drainage due to which most area is waterlogged during rain.      |
| ③  | Need for improvement of drinking water supply particularly Bhat Mohalla                  |
| ④  | Improvement of inner links leading to schools & mosques                                  |

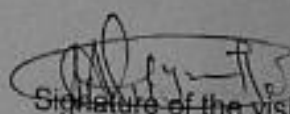

III Overall perception of functioning of the government:

- There has been lack of cooperation by the people of Seeloo for which both govt.
- Functionaries and public should make efforts.
- overall redressal of public grievances is poor due to non-coordination of people

IV Overall assessment of visit and suggestions:

(the visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

- ① Redressal of public grievances should be quick
- ② lack of cooperation by public for which both public and govt. should make efforts.
- ③ Basic life facilities related to PHE, PDD, R&B need to be addressed
- ④ lack of unity amongst <sup>coordination</sup> people needs to be improved such that they can represent their problems in a good manner.
