New Horizon

General Instructions for the Writing Officer

- 1. The first sentence of the report should state the purpose of the visit and the date of departure.
- 2. The second sentence should state the name of the person or organization being visited.
- 3. The third sentence should state the location of the visit.
- 4. The fourth sentence should state the time of the visit.
- 5. The fifth sentence should state the name of the person who accompanied you.
- 6. The sixth sentence should state the name of the person who received you.
- 7. The seventh sentence should state the name of the person who conducted the interview.
- 8. The eighth sentence should state the name of the person who conducted the interview.
- 9. The ninth sentence should state the name of the person who conducted the interview.
- 10. The tenth sentence should state the name of the person who conducted the interview.

Mission Statement

The purpose of this mission statement is to provide a clear and concise statement of the organization's purpose, vision, and values. It is intended to guide the organization's actions and decisions, and to communicate its mission to its stakeholders.

The organization's mission is to provide high-quality, affordable healthcare services to all members of the community. Our vision is to be the leading provider of healthcare services in our region. Our values are integrity, compassion, and excellence.

The organization's primary focus is on providing comprehensive primary care services, including medical, dental, and behavioral health services. We are committed to providing a patient-centered, holistic approach to care.

The organization's commitment to quality is reflected in our accreditation by the Joint Commission. We are committed to continuous improvement and to providing the highest quality of care to our patients.

The organization's financial goals are to maintain a strong financial position and to invest in the future of the organization. We are committed to transparency and accountability in our financial reporting.

The organization's commitment to the community is reflected in our participation in various community programs and initiatives. We are committed to being a good neighbor and to contributing to the well-being of the community.

The organization's commitment to diversity and inclusion is reflected in our policies and practices. We are committed to creating a diverse and inclusive workplace where all employees can thrive.

The organization's commitment to environmental sustainability is reflected in our efforts to reduce our carbon footprint and to conserve resources. We are committed to being a responsible corporate citizen.

Back to the Village Report

(Format to be filled up by the Reporting Officer during

his/her two day visit to the Gram Panchayat)

A) DETAILS OF REPORTING OFFICER:

I. Name: Dr. Indor Ahmad Klondy
II. Designation: Veterinary Assistant Surgeon.
III. Department/ place of posting: Sheep Husbandry Department
IV. Mobile No: 9622727375, 9066770015
V. Emailid: shrkondy27@gmail.com
VI. Home District: Amnong
VII. Dates of visit: 20/21/22/23/24/25/26/27 June 2019
27/21-06-2019

B) LOCAL DETAILS OF GRAM PANCHAYAT:

I. Name of the Gram Panchayat (GP): Klongam-c
II. Local Government Directory (LGD) code of the GP: 242540
(To be sourced from Rural Development Department/ by DCI)

III. Name of CD Block: Beng
IV. Name of Tehsil: Kiriakong
V. Name of District: Amnong

C) PANCHAYAT PROFILE:

I. Name(s) of revenue villages in the Gram Panchayat: 1, 2, 3

II. No. of hamlets in the GP: 4

III. No. of households in the GP: 395

IV. Population (approx) of the GP: 2367

V. Significant geographical feature of the GP (hilly/ kandi/ plain):

VI. Key natural resources of the GP (forest/ water bodies/ minerals/ others/ None):

Table 1.1: The structure of the atom

The nucleus is made of protons and neutrons.

Electrons are negatively charged.

The mass of an electron is very small compared to a proton.

The mass of a neutron is slightly more than that of a proton.

The mass of a proton is about 1836 times that of an electron.

The mass of a neutron is about 1839 times that of an electron.

The mass of an alpha particle is about 7300 times that of an electron.

The mass of a beta particle is about 1/1836 times that of a proton.

The mass of a gamma ray is zero.

The mass of a positron is the same as that of an electron.

The mass of an antineutrino is zero.

The mass of a neutrino is very small.

The mass of a photon is zero.

The mass of a gluon is zero.

The mass of a quark is very small.

The mass of a lepton is very small.

The mass of a fermion is very small.

The mass of a boson is very small.

The mass of a gauge boson is very small.

The mass of a Higgs boson is very small.

The mass of a graviton is zero.

The mass of a photon is zero.

Table 1.2: The structure of the atom

Electrons are negatively charged. The mass of an electron is very small compared to a proton. The mass of a neutron is slightly more than that of a proton. The mass of a proton is about 1836 times that of an electron. The mass of a neutron is about 1839 times that of an electron. The mass of an alpha particle is about 7300 times that of an electron. The mass of a beta particle is about 1/1836 times that of a proton. The mass of a gamma ray is zero. The mass of a positron is the same as that of an electron. The mass of an antineutrino is zero. The mass of a neutrino is very small.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

The mass of a photon is zero. The mass of a gluon is zero. The mass of a quark is very small. The mass of a lepton is very small. The mass of a fermion is very small. The mass of a boson is very small. The mass of a gauge boson is very small. The mass of a Higgs boson is very small. The mass of a graviton is zero. The mass of a photon is zero.

Handwritten notes on the bottom of the right page, including a heading and several lines of text.

1. The first step is to identify the problem.

2. Next, we need to define the scope of the problem.

3. Then, we should gather all the relevant information.

4. After that, we can analyze the data and identify the causes.

5. Finally, we can develop a solution and implement it.

6. The next step is to evaluate the results of the solution.

7. This process should be repeated as needed.

8. The final step is to document the findings and lessons learned.

9. This document should be shared with all stakeholders.

10. The process should be reviewed and updated as needed.

11. This is a continuous process that requires ongoing attention.

12. The goal is to improve the organization's performance.

13. This process is essential for long-term success.

14. It helps to identify areas for improvement and take action.

15. This process is a key part of a quality management system.

16. It is a systematic approach to problem-solving.

17. This process is based on the scientific method.

18. It involves a series of steps that are repeated as needed.

19. This process is a key part of a continuous improvement culture.

20. It helps to ensure that the organization is always improving.

21. This process is a key part of a lean manufacturing system.

1. The first part of the document is a list of items. Each item is numbered and includes a description of the item. The items are listed in a columnar format.

2. The second part of the document is a table. The table has four columns and multiple rows. Each row contains data corresponding to the items listed in the first part.

3. The third part of the document is another table. This table also has four columns and multiple rows, similar in structure to the second table.

4. The final part of the document is a list of items, similar to the first part, but with different descriptions and numbers.

7. SPORTS

- i. Popular sports in the Gram Panchayat _____
Cricket.
- ii. Number of playfields in the Gram Panchayat 4 (Nos)
- iii. Whether the available playfields require further development Yes/ No *(Good envt)*

xxx. Is there any public/ common/ forest/ waste land available in the GP for afforestation?
If yes, approx. area 15 Kanals

xxvii. What can be done to promote tourism (if possible)
*Bridge on Bxay, connectivity
Main GP E. Sahabibnagar village.*

xxviii. Potential for village tourism: Pleasure/ Religious/ Historic/ Adventure/ Others
Tourism

xxix. Number of persons engaged in government service 42 (approx number)

1	Mainly shops
2	Carpeting
3	Vehicle maintenance

xxv. Please specify the activity in which small scale industrial units are mainly in:

xxvi. Number of small enterprises/ industries/ shops/ others in the GP: 25-50 Employees 25-50

Activity/ Industry	Persons engaged
1	Male/ Female/ Both
2	Male/ Female/ Both
3	Male/ Female/ Both
4	Male/ Female/ Both

xxvii. Major cottage industries in GP (please specify)

- d. Activities _____
- c. Any problems being faced by the SHGs _____

THE DEVELOPMENTAL MODEL

PLANNING

THE DEVELOPMENTAL MODEL

IMPLEMENTATION

Public Transport System
Public Transport System
Public Transport System

- 1. Public transport system will have a demand for additional training for its employees and staff.
- 2. There will be a need for development programmes, refresher courses, etc.

SOIL DEVELOPMENT

- 1. Soil development is a process of making soil more fertile and productive.
- 2. It involves the use of organic and inorganic materials to improve soil structure and fertility.
- 3. Soil development is essential for agriculture and horticulture.

PUBLIC TRANSPORT SYSTEM

- 1. Public transport system is a mode of transport that carries multiple passengers between different geographical locations.
- 2. It includes various modes of transport such as buses, trains, metros, and trams.
- 3. Public transport systems are essential for urban mobility and economic development.
- 4. They provide a convenient and affordable means of travel for a large number of people.
- 5. Public transport systems also play a role in reducing traffic congestion and air pollution.

COVERAGE OF PERSON SCHEMES

- 1. Coverage of person schemes refers to the extent to which these schemes provide benefits to different groups of people.
- 2. It includes the identification of target populations and the design of interventions to reach them.

SWAYAM SIKSHAN

- 1. Swayam Shiksha is a self-help group (SHG) based approach to rural development.
- 2. It focuses on the formation of SHGs and their empowerment through various activities.
- 3. The goal is to improve the living standards of rural communities.

QUALITY RURAL EXTENSION

- 1. Quality rural extension refers to the provision of high-quality services to rural communities.
- 2. It involves the use of participatory approaches and the empowerment of rural people.
- 3. The focus is on addressing the specific needs and challenges of rural areas.

ROLE OF EXTENSION WORKERS

- 1. Extension workers play a crucial role in disseminating knowledge and skills to rural communities.
- 2. They act as a bridge between the government and the rural population.
- 3. Their work is essential for the success of various rural development programmes.

QUESTIONS

- 1. What is the role of extension workers in rural development?
- 2. How can the quality of rural extension be improved?

EXTENSION WORKERS

- 1. Extension workers are individuals who provide technical assistance and training to rural communities.
- 2. They are trained in various fields such as agriculture, health, and education.

EXTENSION WORKERS

- 1. Extension workers are trained to provide technical assistance and training to rural communities.
- 2. They play a key role in the success of rural development programmes.

EXTENSION WORKERS

- 1. Extension workers are trained to provide technical assistance and training to rural communities.
- 2. They are essential for the success of rural development programmes.
