Since G.P. is having agri. as their mainstay & they raise mainly paddy crop here; as such irrigation is a must for this irrigated crop — irrigation dept. needs to be geared-up with all its resources so that people do not suffer. However, concerned engineer/ staff have sent a DPR of a project to the govt. for approval; needs to be taken up for action on priority and to avoid crop losses due to shortage of irrigation water during storage the crop season. Further, poor health & hygiene/ sanitation seems to prevail in G.P. So, necessary steps be taken up, G.P.
