Mission Statement

In a bid of bringing the Government of Jammu and Kashmir has embarked on an ambitious and extensive programme of reaching out to the masses in the grassroots level to create in the rural masses an awareness for a better standard of living.

The Back to Village programme is aimed to involve the people of the state and Government officers in a joint effort to achieve the mission of extending development work. The programme is aimed at energizing Panchayats and ensuring development efforts in rural areas through community participation.

As part of the programme, musketeers will have to reach out to each Panchayat of the state, where they will stay for a specific period to interact and obtain feedback from the grassroots so as to tailor government efforts in improving delivery of various specific services.

The Back to Village programme has been conceived with the objective of ensuring that developmental initiatives are built on the feedback and cooperation of the people. Musketeers must be result oriented with greater probability of success than those which are top down.

The programme revolves around the concept that while the official machinery has to guide and assist, the primary responsibility to improve local conditions rests with the people themselves. Therefore, they must be encouraged to own a programme so that benefits are maximized.

The life of a person living in a rural area is not cut into segments in the way the Government activities are prone to be. The approach at the village level, therefore, has to be a coordinated, focusing all aspects of village life. Such an approach has to be made not through a multiplicity of departmental officials, but through Panchayats.

The essence of the Back to Village programme is to emphasize the importance of ensuring right from the beginning, people's participation, not merely as an agent in the execution of the development work, but as partners of the entire programme.

We hope this initiative will go a long way in achieving long term objective of grassroots democracy.

B V R Subrahmanyam, IAS
Chief Secretary
