- And just compare and contrast with an already established text, for example with the one from last weekend (Philip IV, 1494)
- And please remember, being successful in the second text (1494) is first and last, because you have learned in the first text (1493)
- However, this also is exemplified in the Queen's final paragraph, not in the second or third writing, rather the first
- And, additionally, in the middle paragraph, there is no reference on what Philip's words "And the"

Abstract
