5. Establishing a Health Sub Centre in the Gram Panchayat as people especially women and old have to go to Gurd for first aid.
6. Construction of a ^{multi-purpose} Community Hall which can be used by people
7. Upgradation of and black topping of all internal roads.

V Any major complaint brought to notice:

Most of people especially Gaffars complained that Social welfare Deptt. does not provide necessary help to physically & Mentally challenged people besides old age ^{people} and widows inspite of their frequent visits to the offices of Social welfare Deptts. In addition they were of the view that PRI's are biased towards influential and richer people.

VI Overall assessment of visit (Public Services): Please mention best practices, if any, observed

It has been observed that people of this socially and economically backward area are cautious about their rights and they are keenly watching the functioning of panchayat and different Govt. Deptts. Most of the people are aware about the schemes and incentives provided by different Deptts. to common people in general and to poor & destitute and deserving in particular.

VII Overall assessment of visit (Panchayat Functioning):

The visit in my opinion remained extremely successful and people irrespective of their Caste, Creed and Culture openly were able to ... their demands of their individual and general interests and are cautious of their rights and various incentives provided by the Govt. They atleast became aware about the benefits of keeping their village clean. They were extremely enthusiastic during the programme.
