Health → Two Health Sub-Centers working in GP were accommodated in rented kucha rooms. The condition of the rooms from where the health centers are operating is very miserable. These rooms can't provide protection from rains. There was also no proper supply of medicines and equipment. Besides being engaged in the tasks related to existing staff need urgent intervention by state level authorities. It seems that the state level authorities have seriously ignored the vital institutions.

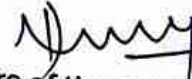

Animal Husbandry Dept. Livestock rearing is the mainstay of the people of GP and constitutes main part of the economic activities of the village. The present Animal Husbandry Sub-Center is about 80 years old. The good livestock potential of the area the services provided by the Dept. of Animal Husbandry need to be extended to this panchayat at the earliest.

VI	Overall assessment of visit (Public Services): Please mention best practices, if any, observed
	<p>Personally, the overall experience of my visit has been very good. The employees concerning departments which have their presence in the Panchayat are trying at their best to render services to the needy peoples of this remote Panchayat in remote location and hilly terrain. People of this area are still deprived of services of many departments.</p>
VII	Overall assessment of visit (Panchayat Functioning):
	<p>I shall say "very good". The leader (Sarpanch) is very young, enthusiastic and sincere. The elected PRI members form a good blend of youth, elders and women from different communities. The PRI members are holding regular meetings at different level and putting their best.</p>
