GOVERNMENT
JAMMU & KASHMIR

(The) BISHAKA
OFFICE-20200

SWCS/646/Gen/14/2019-20
Dated: 26-01-2019

Dear Deputy Commissioner,

The true spirit of Hapoori lies in the active involvement of people in decision making process to build their area specific needs. During the last few years, the Government has taken various steps in this direction. After the successful conduct of election in Panchayat and Urban Local Bodies, we have given a big thrust by throwing funds, facilities and facilities to Panchayats, mandating implementation of important schemes through them and empowering them in every possible way.

Continuing with our endeavours in this direction, the government is initiating an ambitious plan in the village programme whereby every gram panchayat of the state will be allocated one of the four categories of the state where backward would not and spend two days including a night visit and return closely with the people. This would be the first initiative of its kind in our state.

We are hopeful that this visitation program where with people will not only strengthen the bonds between the Government and the citizens but also make preliminary planning strategy. The wealth of the local information will be officers will be able to collect from these visitations will help us appreciate local problems better and come up with appropriate interventions.

The intense conduct of this visitation programme, begins on the Deputy Commissioner who is the main visit. Therefore, the success of the programme will depend upon your commitment and coordination with various state bodies.

I am therefore, writing to draw your attention to ensure the successful programme. I urge you to coordinate your time and resources and carry out all such activities as may be necessary to realize the objectives that we have envisaged while conceiving this programme.

I am sure that working together, through this programme, we will be able to bring about a distinctive and positive change in the rural landscape of the state and leave an indelible impression on the faces of the people smiling in our villages.

With warm regards,

Yours sincerely,

Dr. B. B. Bhat
(Chief Minister)

1. The first step is to identify the problem or question that needs to be answered.

2. Next, gather all relevant information and data that can help in understanding the problem.

3. Then, analyze the information and data to identify patterns, trends, and relationships.

4. After analysis, develop a hypothesis or a proposed solution to the problem.

5. Finally, test the hypothesis or solution through experimentation or further analysis.

6. Once tested, evaluate the results and determine if the hypothesis or solution is valid.

7. If the hypothesis or solution is not valid, revise it and repeat the process.

8. If the hypothesis or solution is valid, communicate the findings and conclusions to others.

9. The process of problem-solving is often iterative, meaning that it may be necessary to repeat steps as needed.

10. Finally, reflect on the process and learn from the experience for future problem-solving.
