

Jalsheeri B2V2

L) GENERAL ASSESSMENT OF THE VISITING OFFICER:

I	Urgent public requirements in order of priority (Max. 07):
1.	Safe drinking water, water filtration plant for which 40 No. (4 inch) pipes are needed, water connectivity from phase I-II. Need of one additional water reservoir and bore well.
2.	Reverse electricity connectivity, needs poles (30 No.) for about 48 hectares. Removal of HT 11000V from local trees/populus, atleast 3 transformers (250 KV) needed.
3.	Ward No. 3, 4 and 5 need separate Anganwadi centres
4.	Proper macadamization of 3 link roads from main road (around 7 kms). The condition of roads is very worst.
5.	One Primary health centre building (atleast 3-4 rooms), one doctor and Ambulance.
6.	Upgradation of Primary school to Middle school as around 200 pupil are school going students in the village
7.	127 households need Pucca House under PMAY (SECC / Non SECC)
II	Any major complaint brought to notice of the Visiting Officer:
	Major problem of the village is drainage system. There is a major problem of drainage in the whole Jalsheeri village which needs proper attention from the higher ups. So that further damage in the village may be stopped.
