Message

In June 2012, Jammu & Kashmir embarked on a unique initiative 'Thak to Village'. The project was both fascinating and ambitious - a public outreach of the state and issues that never been attempted before, certainly not in a state like Jammu & Kashmir with its unique problems of geography, climate and law and order.

Undaunted by the obstacles and the negativity we decided to go ahead with the programme. The response of the programme exceeded our own expectations. Enquiries from visiting officers were sustained, bold and numerous. The education and respect with which officers were received across geographical sets, for us, a testimony to the growth and maturity of the common people. The officers spent two days and a night with the people living with them, visiting the same food and having first hand the challenges and tribulations of their existence. For many it was a unique learning experience - the first hand of experience as it had been to them the familiar living of village. We often were a surprising the myriad challenges of their existence. Such was the enthusiasm generated by the programme that a resident of Dargah District wrote to the then Prime Minister about this programme saying, which the Prime Minister made a member of it in the Muzim Al Dargah Programme calling it a method of development, public participation and public awareness.

Encouraged by the success of the first edition of the programme, we have also decided to embark on its second phase. While the first phase of the programme was focused on collecting baseline and assessing needs, the second phase intends to back the existing PDS institutions, revitalize them and enhance their functioning. The functioning of this edition of the programme will be to look at the various key areas: agriculture and livestock, health, education, women and youth, and their needs about the programme. The visiting officers would also study agriculture and their disposal and be acquainted with the objectives of nutritional and food activities in the Panchayats.

I am confident that our entire team will once again rise to the occasion and realize the success of the first edition of the programme. I am also confident that the Deputy visiting officers and the respective departments will ensure the necessary coordination for the entire visit as an individualized, efficient, governance programme which will not only be a genuine understanding of the ground but also take the information and then and then in delivering development better and faster.

Message

One of the key elements of good governance is the responsiveness of government institutions to the people's interests and concerns in decision making. After the successful launch of Panchayat Functionaries in 2018, it was essential to reach out to the people by getting their valuable feedback for making the functioning of the democratic institutions an efficient and meaningful institutions of governance.

With a view to reaching out to every man and woman of Jammu & Kashmir, the Government constituted 'Block to Village (BTV)' programme, the first of its kind in Jammu & Kashmir. The programme which was launched from June 2017, 2018 across all 4413 Panchayats focused on emerging Panchayats, soliciting feedback on delivery of government schemes/programmes, capturing specific economic problems and addressing assessment of needs of the villages. People came out in droves to welcome the visiting officers and appreciated the initiative of the government. The initiative was widely acknowledged with Prime Minister Shri Narendra Modi mentioning it in 'Mano Ki Baat' on 26th July, 2018. The initiative was widely and vigorously welcomed by the common people and became a part of the Panchayat's agenda.

Government has already released funds for the Panchayats to address the priority needs identified during the first phase of BTV programme.

All BTV envisages equitable development of Panchayats with a broad-based approach to expenditure and the initiative is carried forward to address the need of empowerment and mobilisation of the Panchayats that involve the people of the Grams and to reach out the target of various flagship programmes and welfare schemes of the rural population. The initiative to implement and help the government to take the various social and other government schemes/programmes to improve delivery of village specific services and making it an village to better delivery of essential services and facilities. It is under the BTV programme and will be an an institutionalised, thereby government programme, which activity to deliver only and better services and development.

I hereby appeal to Panchayat representatives as well as people to come forward to support their views before the visiting officers for strengthening the Panch.

I would urge the Jammu & Kashmir Government to coordinate the visit of officers to various Panchayats/Block to Village.

I am confident that our citizens who will be a part of the BTV programme will work proactively to make the initiative a great success.

Overall application of feedback of hand on the P. is integrating to words important in his positive reinforcement, motivating to his best functioning updates.

2. Check accuracy of data and responses.

The existing literature suggests that the overall assessment is not likely to be linked strongly with economic expectations.

The economy of $\mathbb{R}^1$ is mostly dependent on the ordering, however it can be seen that as much as ordering, topology is also needed to ensure that the economy of $\mathbb{R}^n$ forms an additive structure that is $\mathbb{R}^1$ itself, possibly with additional geometry.
