

I) GENERAL ASSESSMENT OF THE VISITING OFFICER:

I	Urgent public requirements in order of priority (Max. 07)
	1. widening, patch work and black top to road from Utroba to Boranigan.
	2. Primary health Centre & Bank branch at Boranigan.
	3. Sewer service from Anantnag to Berweth.
	4. Water supply line from Lehman to Boranigan.
✓	5. Creation of irrigation infrastructure in terms of bore/shallow well & water harvesting tank as the area is rainfed.
	6. Anganwadi centres at Mahila Koshwan (Guffa Patti) and Kumar Mahalla.
✓	7. More ration supply (especially rice) as area has no stockland. → also some of the individuals are not covered in the present list.
II	Any major complaint brought to notice of the Visiting Officer:
	Poor electric supply/maintenance
	Poor quality & insufficient drinking water. More me
	Some of the households are still not connected by drinking & water supply line.

III Overall perception of functioning of the government:

Not notable achievement of any department.
from the date of B2V1. Works inaugurated during
B2V1 still not started.

IV Overall assessment of visit and suggestions:

(the visiting officer to ensure that the overall assessment is recorded in detail
along with concrete suggestions.)

As the area is entirely rainfed, creation of irrigation
infrastructure/water conservation measures needed
for growing of High yielding varieties/oleiculture
also improvement in connectivity through roads/infrastructure
in power supply, health facilities & drinking water is a priority.

As most of the people are connected with cattle/sheep rearing more
uniformed cattle/breed to be provided as subsidy as most of the families
below BPL group.
