III	Overall perception of functioning of the government.
	The villagers have generally, good perception about RDS, social Welfare Dept, Food & Supplies and Animal Husbandry Dept but very poor perception about other line depths particularly Power Development Dept, Public Health Dept. The people were concerned about the pollution to local water bodies because of the absence of waste/garbage disposal on scientific lines. The commitment in local govt schools is low owing to the perception of poor teaching in teacher.
IV	Overall assessment of visit and suggestions: (the visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)
	The programme of Back to Village should be a regular process and not an event. The line department should be represented in such programmes by the senior officers of the department and not by lower rank casual or contractual functionaries. Most of the decisions should be taken on spot with any further official & procedural delay. The basic needs of common villagers like power, water, good road connectivity and some health care facilities, should be given top priority.
