IV	Overall assessment of visit and suggestions: (the visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)
	Most of the people of the area belong to weaker sections of society. There is dire need to uplift them by providing them support from financial institutions i.e. Banks — like loan on low interest rates so that they can establish small scale units. — dairy units, poultry units, fish ponds, retail shops etc. Unemployed, educated youth be provided monthly stipend till they become self sufficient.
