III Overall perception of functioning of the government:

A far sighted step of Govt to village, appreciated by the general public, needs a strengthened follow up. Precise information in leaflet to be disseminated to PRI for public display. Food processing training programmes at GP level for women. Cottage industry to be revived on mechanised lines.

IV Overall assessment of visit and suggestions:

(The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

People are enthusiastic for their development programmes but the government needs to convince them that their job is in redressal mode and satisfy their genuine demands. Awareness about the schemes need to be strengthened through mass media, especially radio. Accountability at ground level needs to be implemented with delivery. Column for Mandate of General public to be added.
