|                         | 6. Face lifting of High School Binnel and installation of street lights in Bus Adda, Binnel.                                                                                                                                                                                                        |
|                         | ✓ 7. Ration shop does not have enough space to accommodate people acquiring ration. However, Sheikh Mohalla demands a separate Handicraft Training Centre.                                                                                                                                          |
| II                      | Any major complaint brought to notice of the Visiting Officer:                                                                                                                                                                                                                                      |
|                         | More than 30% of population in Binnel lives who need income yielding resources and most part of the village suffers water supply problems as the various schemes have become defunct.<br>Dumping of solid waste & dismantling of open latrines.<br>Road widening & renovation needs an utmost care. |

III Overall perception of functioning of the government:

All the govt. depts. & their functionaries lived upto the satisfaction & delivered almost 80% of their responsibilities. However, more accountability is needed to be assigned and fixed to the concerned department.

IV Overall assessment of visit and suggestions:

(the visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

The number of difficulties are multiple. Installation of new transformers, erection of new poles <sup>by</sup> appropriate arrange system, removal of solid waste and recreation of community hall. Moreover, the fencing and upshiftment of Sub-centre & community hall.

Signature of the visiting officer.
