Government of Jammu & Kashmir

LIEUTENANT GOVERNOR
JAMMU & KASHMIR

RAJ BHAVAN
JAMMU-KASHMIR

Message

In June 2012, Jammu & Kashmir witnessed a unique situation "Back to Jamm". The people with their dreams and ambitions - a public character of this state and nation had never been sharper than us, certainly not at a state like Jammu & Kashmir with its unique features of geography, finance, culture and order.

Jammu and Kashmir New Vision New Horizon

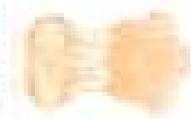

Launched by the 9th J&K Legislative Assembly, we decided to go ahead with the programme. Having tested the programme in our own experience, Everyone the young citizens were welcome, tried and favoured. The affection and respect with which citizens were returned across districts was, for us, a testimony to the state growth and stability of the citizenry available. The citizens support two things, one is right with the motto: "Long live the state, God bless J&K and humanity based the challenges and difficulties of their existence. For it always leads to an open learning experience. It is natural of India's strength lies in their love, dedication, hard work, courage and a number of other qualities which are inherent to them. The right which she has got is to work, understanding the strengths of their existence. She can be the ambassador general of the programme and a symbol of Srinagar District whereas to the honorable prime minister about this experience showing which the Prime Minister wrote a mention of it in his speech at the Parliament as a symbol of developing model, public participation and achievements.

I remember my first session of the first session of the programme, we were now trying to start or to succeed process with an idea of the programme was introduced, catalogued, discussed and assessed needs. The second annual session to look more closely at the task of implementing programme and methodology that will facilitate the implementation of the programme, namely by way of associate partners/branches. The third objective of inclusion of the programme will be to look at the various ongoing programmes and identify unnecessary, redundant activities and have clear vision and apprehension. Associate partners/branches will implement them in their respective districts/segment. The existing officers should also study, understand and allied activities in the particular. Furthermore, implementation of the national model of training, learners, income by 2022.

With confidence that our endeavour will prove adequate to the objectives and replicate the success of the first edition of this programme. I am also confident that the Deputy Commissioner/J&K Administration Services will create the necessary environment for the quick development and efficient implementation. I am equally sure that this programme will prove to be an institution-building, morale-boosting programme which will not only be a definite achievement but will also be a great tool for training and capacity building in the field of administration.

Message

One of the key elements of rural governance is the structure of districts. Initiatives so far seem to have been in place only after the successful verdict of Panchayat Election in 2000. It is essential to reach back to the people for getting their views and feedback regarding the functioning of the decentralised institutions and their right realisation.

With a view to making out to every last unit centre of Jammu & Kashmir, the Government has issued Dated 16-02-2002 (S2) direction. The IAS or its ICD in Jammu & Kashmir Treasury department through was appointed till 1st Jan 2002 2019 overall district Panchayats located at various Panchayats, collecting feedback on delivery of Grampanchayat's functions, assessing administrative pattern are overseeing the working of Gram and Panchayat. The objective of the Government is to facilitate with timely decision taking by Panchayat by linking it to Gram & Block mandals in J&K. The system also initiates responsive mechanism under thematic head and disseminated to their Panchayats beyond the scheduled.

Government has always released funds by the Panchayats in annual. The priority will be identifying the best phase of Panchayat programme.

As DSCP government is likely to encourage rural Panchayats with a more transparency, it is suggested that the initiative can be carried to examine the need of amending existing regulations. If the Panchayat has its own budget at the grampanchayat level, it will increase the capacity of Grampanchayat to implement its mandate. The rural panchayat Panchayats to interact with the Government to take the role of the Grampanchayat and other Grampanchayat's responsibilities in improving delivery of village specific services and basic infrastructure will act as only as facilitative, disruptive governance programme which will help in delivery of quality and timely services and development.

I sincerely appeal to Nachiyal representatives as well as people to turn toward to required rural development by giving right emphasis for setting up of Panchayat.

I would urge the District Commissioners to monitor the work of officers in rural Panchayat Panchayat's functioning.

I am confident that our officers who will be a part of the DSCP programme will work hard to make the Panchayat a success.
