- iv. Population (approx.) of the Panchayat: *1254*

L) GENERAL ASSESSMENT OF THE VISITING OFFICER:

I	Urgent public requirements in order of priority (Max. 07):
	Improper water supply due to open-overground & damaged pipes. Needs to make nonfunctional reservoir functional. PHE dept needs to pay attention to mitigate the problems by providing need clean piped water. Needs installation of some street light in each village - as power cut sup creates quite black out. Panchayat Ghar dispute needs to be resolved. and H.T. electric poles damaged be repaired soon. Needs installation of Mobile Tower, as the signal is almost zero in the area. Block office needs to be brought back from Hasti to central place Galigad. Formation construction/repair of lane drains in each village. Pucca path for Galigad needs to be constructed from main road. Arrangement of Transportation for carrying dairy, Agri products. Needs agriculture extension office & centre. Extension centre of Horticulture & fisheries dept.
II	Any major complaint brought to notice of the Visiting Officer:
	① Unavailability of PHE officers - (Leading to disruption and water contamination) & incomplete nonfunctional reservoirs & dept. ② NET Connectivity & replacement of high capacity Transformer at Galigad & installation of new one as proposed. ③ Make arrangement for (lifting/carryage) Transportation of crops & dairy products to market. Non availability of play ground & ambulance. ④ Non cooperation of Revenue officials to set record correct. their

III Overall perception of functioning of the government:

over all functioning of these deptt in particular, having their centres/offices in Trigram C. is very good others could be categorise as good. Need is to strengthen the manpower of each deptt to make the functioning excellent. Ext of Panchayat Raj system has add feathers to the functioning. overall average perception is good.

IV Overall assessment of visit and suggestions:

(the visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

Majority of the public are linked with mixed farming. The area has a hilly Terrain & adequate water resources, so it has great potential in Agriculture, dairy, horticulture & fisheries. The people are generally hardworker and educated.

- ① The area easier cultivation or the available land of the area needs to be protected from sinking. The barren land with slopy nature could be made used for commercial plantation. High density Walnut plants availability & Transportation facility for marketing Agri - dairy etc products could help the people lot. const of Fish Ponds & vermicompost could add to economy of the public.
- ② Area being hilly could be a tourist spot if developed, also could be used for mountaineering climbing as well

Signature of the visiting officer 26/11/19.
