III Overall assessment of visit and suggestions:
(The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

The general perception among the people about Back to village is not good because people feel lot of promises are made during these programmes but are not fulfilled mostly. So with this public participation remains poor. Harvest season ~~was~~ is another reason for poor participation. However some people were enthusiastic about the programme and put their demands before me for onward transmission. Needless to mention less efforts by the govt departments for making people aware about the new schemes. Panchayat is functioning normally.
