NOTES

It was also observed that heaps of cow dung
lying on road sides which pollute the air of the
surroundings and is my view main cause of some air
borne diseases. The inhabitants should be made aware &
suggest them digging of small pits/trenches in adjacent areas
of cow shed and dump the waste material of cow shed in it
and cover it with polythene which will decompose then use
it in their agricultural/horticultural land that will increase
the production of their crops for their awareness programs
should be started.

In schools childrens must be made aware about
"Suekha" usually one hour in schools should be "Suekha"
hour. The children can impress their parents by doing
such "Suekha" activities at home which they learn from
schools. Also at the time of morning assembly
students should be made aware about the dry season
and its harmful effects.
