III	Overall assessment of visit and suggestions: (The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)
B	<p>90% of population depend upon agriculture, due to frequent threat of floods and drought people face hardships due to low income and have to sell their land at the time of construction of house and marriage of their children. So it is strongly recommended that the halqa should be brought under Educationally backward category or OBC category. High density apple nurseries at low rates should be provided for horticulture. Loan facilities at low interests for educated youth through different schemes of Govt. etc. Dairy farms, good quality of sheep, Handicraft centres for women.</p>
