III Overall assessment of visit and suggestions:
(The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

It was a great experience to be with the people along with the line departments. The area is in developing phase. People's expectations towards administration is high. The people / population of the talga have genuine grievances and the district administration should take concrete steps for their early redressals. However basic requirements of drinking water, electricity supply infrastructure, improvised health care facilities and upgradation / Renovation of Gms. Udoora should be taken at its earliest.
