1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

2. The second step is to analyze the problem. This involves looking at the data and identifying the causes of the problem.

3. The third step is to develop a solution. This involves brainstorming ideas and selecting the best one.

4. The fourth step is to implement the solution. This involves putting the plan into action.

5. The fifth step is to evaluate the results. This involves monitoring the progress and making adjustments as needed.
