

Jammu & Kashmir New Vision New Horizon

LIEUTENANT GOVERNOR
JAMMU & KASHMIR

RAJ BHAWAN
SRINAGAR

Message

I am delighted to learn that the 3rd version of the much-acclaimed Back to Village-3 (B2V3) programme, a unique and ambitious exercise of taking government to the doorstep of people is being organised from 2nd to 12th October 2020, across Jammu & Kashmir.

In June 2019, the Government of Jammu and Kashmir embarked on the Back to Village programme, which involved the visit of over 4000 Gazetted officers of J&K to every Panchayat and spending two days and a night there. It was also an opportunity to support and strengthen the newly constituted Panchayats. The programme was a huge success. Visiting officers were welcomed and hailed by populace eager to share its troubles and travails with what they had perceived as an unresponsive administration. In fact such was the enthusiasm generated by the programme that the Hon'ble Prime Minister made a mention of it in his "Aman Ki Bani", calling it a 'ballet of development, public participation and public initiatives'.

Encouraged by the success of the programme, the government organized the Back to Village-2 (B2V2) in November 2019. This time the focus was on ensuring that funds and functions devolved to the Panchayats were used without any bottlenecks and that beneficiary oriented schemes actually reach the last person in the queue. The Hon'ble Prime Minister again made mention of the programme in his Independence Day speech of 2020.

I believe the upcoming version of the Back to Village-3 (B2V3) programme will be an attempt at a consolidated and determined developmental push in the region. The actual programme shall be preceded by a three week Jan Aarogya (Janant Mukt) which shall focus on 3 concurrent and interconnected goals: Jan Surveksh (Health Survey) - Public grievances redressal, Adhar Abhiyan (Aadhar Bharat-Higood) + Public Service Delivery and Universal Clean Abhiyan (Deh Taraayati Mahat) - Delivery of Development on ground.

I am confident that this unique effort shall earn the respect of the people of Jammu and Kashmir and that it will be remembered for long as a unique and sincere effort of the government to reach the doorstep of the people.

Jammu & Kashmir**

Message

Jamini and Kashmir continues to witness a transformation of Panchayat Raj institutions ever since their constitution in 2018. Through the test of its first edition - 'Back to Village' - and the Government's decision of delegating funds, functions and functions to PPRs, grass roots democracy has flourished at the Union Territory. As a next step in this direction, the volume 2 of the 'Back to Village' programme 2 is being held from 2nd October to 12th October, 2020, which will give a deeper push to the institutionalization of PPRs.

While the first B2V focused on information and information on local needs, the second B2V focused on strengthening and institutionalizing Panchayats, introducing the newly elected PPRs, and focusing on saturation and 100% coverage of individual beneficiary oriented activities.

Now, building on the foundation laid by B2V1 and B2V2, the B2V3 has been planned as an Action edition with its focus on implementation and execution. This edition will aim to address grievances and needs by concrete action on the ground, thus making a more ambitious and action packed.

Further, local demands are being taken up through a three week long public outreach exercise led by Atishayashanti Mishra, with its three concurrent and interconnected goals of public grievances redressal, public service delivery and delivery of development on ground. B2V3 is also an occasion to assess government functioning and service delivery through an unprecedented practice **Government-4-90 exercise**.

I appeal to all Panchayat representatives as well as people to come forward and proactively participate in the program, thereby making governance more participatory, transparent and responsive.

I also urge the Deputy Commissioners to coordinate the visits of officers to various Panchayat Houpas for better outcomes and ensure adherence to COVID SOPs while arranging various outreach activities.

I am confident that the people and officials alike will once again rise to the occasion and replicate the success of earlier B2V programmes.

Detailed description of the figure: This figure is a line graph titled 'Detailed description of the figure'. The y-axis is labeled 'Detailed description of the y-axis' and ranges from 0 to 100. The x-axis is labeled 'Detailed description of the x-axis' and ranges from 0 to 100. The graph shows a series of data points connected by lines, representing a trend over time or across categories. The data points are approximately: (0, 0), (10, 10), (20, 20), (30, 30), (40, 40), (50, 50), (60, 60), (70, 70), (80, 80), (90, 90), (100, 100). The lines connect these points in a series of small steps, creating a jagged appearance. The overall trend is a steady increase from 0 to 100. The graph is enclosed in a rectangular frame with tick marks on both axes. The title 'Detailed description of the figure' is centered above the graph. The axes are labeled 'Detailed description of the y-axis' and 'Detailed description of the x-axis'. The data points are represented by small circles connected by lines. The lines are solid and black. The background is white. The font used for labels and titles is a standard serif font. The overall style is that of a technical or scientific plot. The graph is intended to show a clear, linear relationship between the variables on the axes. The data points are evenly spaced, suggesting a regular interval of measurement or observation. The title and axis labels provide context for the data being presented. The graph is a simple yet effective way to visualize a linear trend. The use of a jagged line instead of a straight line might be to emphasize the discrete nature of the data points or to show a more detailed view of the progression. The graph is well-proportioned and easy to read. The labels are clear and legible. The overall presentation is professional and informative. The graph is a good example of how to effectively communicate data in a visual format. The use of a line graph is appropriate for showing trends over time or across categories. The data points are clearly marked, and the lines connect them in a way that is easy to follow. The title and axis labels are essential for interpreting the graph correctly. The graph is a valuable tool for data analysis and communication. The use of a jagged line is a creative choice that adds visual interest without obscuring the underlying trend. The graph is a well-designed and informative visualization of a linear relationship. The data points are clearly marked, and the lines connect them in a way that is easy to follow. The title and axis labels are essential for interpreting the graph correctly. The graph is a valuable tool for data analysis and communication.
