I) GENERAL ASSESSMENT OF THE VISITING OFFICER:

I	Any major complaint brought to the notice of the Visiting Officer:
1.	Lack of proper ^{water} outlet to the existing irrigation channel creates water logging which creates problems for the orchardists thereby destroying their apple trees. Even a slight drizzle turns the entire village into cesspool.
2.	Lack of proper awareness about various govt. schemes by different departments
3.1	Majority of works done and demands of earlier programs like B1V1 & B2V2 are still pending & need to be fulfilled immediately -
II	Major/ urgent public demand(s) that was/were reflected earlier but have not been addressed so far:
1.	Cleaning & Deslitting of the Irrigation Channel and removing the encroachments around it to prevent the water logging so that there is no inundation & water flows freely.
2.	Primary Health Center be established and land for the same be identified on priority basis.
3.	Electric poles & transmission lines be installed at various places.
4.	Work on incomplete drainages & pending RCC Paths be completed
III	Overall assessment of visit and suggestions: (The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

Back to Village program is a great initiative by the Govt. It gives an opportunity to the people to put forth their issues, problems & demands before the govt. functionaries so that they can be resolved at the earliest. I have also performed the duty of visiting officer in B2V1 program in which I found people were more enthusiastic than this time. The reason I think is the majority of demands were not fulfilled. I would suggest the higher authorities to fulfill the genuine demands so that they would lose interest in such programs. I found less participation of the people in B2V3 program. This is becoz the program was started in the peak harvesting season when all the villagers were busy with Paddy harvesting, apple plucking & other activities. Need of the hour is to fix the proper timing for such programs in future, keeping in view the comfort & working schedule of the people living in rural areas.
