Message

I am delighted to learn that the 3rd version of the much-acclaimed Back to Village-3 (B2V3) programme, a unique and ambitious exercise of taking government to the doorstep of people is being organized from 2nd to 12th October 2020, across Jammu & Kashmir.

In June 2018, the Government of Jammu and Kashmir embarked on the Back to Village programme, which involved the visit of over 4000 Gazetted officers of J&K to every Panchayat and spending two days and a night there. It was also an opportunity to support and strengthen the newly constituted Panchayats. The programme was a huge success. Visiting officers were welcomed and teled by populace eager to share its troubles and travails with what they had perceived as an unresponsive administration. In fact such was the enthusiasm generated by the programme that the Hon'ble Prime Minister made a mention of it in his "Man Ki Baat", calling it "a festival of development, public participation and public awareness."

Encouraged by the success of the programme, the government organized the Back to Village-2 (B2V2) in November 2019. This time the focus was on ensuring that funds and functions devolved to the Panchayats were used without any bottlenecks and that beneficiary oriented schemes actually reach the last person in the queue. The Hon'ble Prime Minister again made mention of the programme in his Independence Day speech of 2020.

I believe the upcoming version of the Back to Village-3 (B2V3) programme will be an attempt at a concentrated and determined developmental push in the region. The actual programme shall be preceded by a three week Jan Abhiyan (Awami Muhim) which shall focus on 3 concurrent and interconnected goals: Jan Sunwai (Awami Sunwai) - Public grievances redressal, Adhikar Abhiyan (Muhim Bara-o-Haqooq) - Public Service Delivery and Unnat Garam Abhiyan (Dehs Taraqiyati Muhim) - Delivery of Development on ground.

I am confident that this unique effort shall earn the respect of the people of Jammu and Kashmir and that it will be remembered for long as a unique and sincere effort of the government to reach the doorsteps of the people.

Message

Jammu and Kashmir continues to witness a transformation of Panchayat Raj institutions ever since their constitution in 2018. Through the first of its kind initiative - 'Back to Village' and the Government's decision of delegating funds, functions and functionaries to PRIs, grass roots democracy has flourished in the Union Territory. As a next step in this direction, the phase 3 of the 'Back to Village' programme 3 is being held from 2nd October to 12th October, 2020, which will give a deeper push to the institutionalisation of PRIs.

While the first B2V focussed on interaction and information on local needs, the second B2V focused on strengthening and institutionalising Panchayats, handholding the newly elected PRIs and focusing on saturation and 100% coverage of individual beneficiary oriented schemes.

Now, building on the foundation laid by B2V1 and B2V2, the B2V3 has been planned as an 'Action' edition with its focus on implementation and execution. This edition will aim to address grievances and needs by concrete action on the ground, thus making it more ambitious and action packed.

Further, local demands are being taken up through a three week long public outreach exercise-Jan Abhyanikwami Mulem, with its three concurrent and interconnected goals of public grievances redressal, public service delivery and delivery of development on ground. B2V3 is also an occasion to assess government functioning and service delivery through an unprecedented proactive Government-PRIs interface.

I appeal to all Panchayat representatives as well as people to come forward and proactively participate in the program, thereby making governance more participatory, transparent and responsible.

I also urge the Deputy Commissioners to coordinate the visits of officers to various Panchayat Hq.s for better outcomes and ensure adherence to COVID SOPs while arranging various outreach activities.

I am confident that the people and officials alike will once again rise to the occasion and replicate the success of earlier B2V programmes.

Subject: Faulty construction of Culvert and neglecting Public safety thereby, by the R&D
Department.

Sir,

With due regards, we the residents of Village Chango want to draw your kind attention towards the following facts:

1. That an irrigation canal called "Panzan" flows from a stream which has a spring as its origin. It is not a flood-channel or a main stream but an irrigation canal. The concerned department has constructed a Culvert replacing a pipe which was there since decades during the lockdown. The height of the culvert has been elevated too high above the existing road level. The uperside of the duck slab is way too above the designed and marked HFL. The road at this location is already too steep, causing problems while driving during winters. The downside of already steep road has been filled with Nallah Mack which has led to further steeping of the grade and is now well beyond allowed IRC limits. This has reduced the vertical sight distance considerably, causing apprehensions of the accidents, endangering the lives of huge number of drivers and commuters, as the road is used sometimes to bypass the traffic from NH4 during traffic jams.
2. This unnecessary raising of the culvert and now filling the road with Mack and the stream (to be constructed) alongside the road will have to be raised as well, which will further unnecessarily drain the State exchequer.
3. That the current status of the Road is Metalled (at WBM G III), the huge level difference of the road even after Musammanation, and the culvert will result in a development of Mack Spots, posing a huge risk of destabilisation of the adjoining houses during rains and accidents, thus endangering the lives and the adjoining property as well.
4. Further, it appears that the Culvert has been constructed without proper survey and supervision. Had it not be so, the Culvert would be almost in alignment with the stream. The culvert constructed on the stream is not properly aligned with the stream. There is a difference of 10-15 degree angle to the pipe that was in place before the culvert. The

- Unnecessarily, many of the problems could have been easily avoided had the field staff applied the knowledge of Survey, Hydrological and Structural Engineering.
- a. That a culvert, under the same pressure, has been constructed in village 1 near Mandakani on a section of good road and exposure, but the height has been kept in respect. That of the one is mounted over a stream. It has not only put the lives of the people in danger but also caused the water to rise.
 - b. As the project is still in progress we must not have to rectify the mistakes caused for the safety of people and property.
 - c. That the people of the village had conveyed their apprehensions to R and B department who are working there and there.

In this manner, we the people have to register our plea in the office of worthy District Magistrate through your good self. We request worthy DC, Amritsar to order for reconstruction of the Culvert to the required height with proper alignment or replace it with a Pipe that was in place before. In order to avoid loss of lives or future.

We the people of Village Changan will appreciate worthy DC, Amritsar to intervene soon to prevent loss. Let the exchange be used to ease the difficulties and not to create more of them. Let there be a good outcome from the final output.

Thanking you in anticipation

Yours Faithfully

Mahala Barbers,

With great anxiety, we the inhabitants of Mahala Barbers
will come the Mahala Barbers of such to village initiative for
visiting our neglected area, which heartily with open arms,
we appreciate this move as the present dispensation with the
hope that our long pending and burning problems will be addressed
as at earliest. Though our village is hardly at a great short
distance from the main town but unfortunately the habitation
is lacking the basic necessities of life and has been so far
being neglected by the high-ups at the helm of affairs.

We hope this visit will definitely become a sign of
relief for us, and with this hope we are submitting some of
our burning demands for your kind consideration and early
material them:-

- 01/ That the Government has constructed a Road hospital
which is now complete in all respects from the last three
years, with all necessary facilities, but due to official
apathy, it is still non-functional. It is desired to state
that the Hospital may be immediately thrown open at
an earliest, for the benefit of one and all.
- 02/ A Road is going from across to village Kralmad, it may be
connected with village Kralma by which it will ultimately
connect the historic place of Varinag.
- 03/ An important and commonly known as Guchaili Road, which
is irrigating thousands of acres of land and is the main
source of irrigation, it is choked as the banks are badly
damaged. It needs urgently to be made concrete through
irrigation department.
- 04/ The department of P.W.D. has laid down two pipes at village
Kralmad some three to four years back, for providing of
sufficient drinking water to the habitation, but due to our
ill luck, the work was never taken to its logical end. It
may be concluded so that the purpose of laying the pipes
is fulfilled at an earliest.
- 05/ An Electric transformer may kindly be installed in one
of the Mohalla of village Kralmad, which is suffering from
irregular power supply and facing power cuts and L.O., to
release our long pending demand.
- 06/ An Anganwadi centre may be established at Dand-Kralmad,
which has not be opened under the scheme so far.
- 07/ The habitation was getting richer on A-cane basis, but
the prices have been increased manifold, then a common man
is not in a position to purchase the same. The same needs
your kind consideration.
- 08/ The deptt. of A.P. is now providing Sugar to the consumers
of A.P. also to PL categories, but now for quite some
time the supply has been stopped. The habitation is facing
acute hardship in this count. The same be provided.

Yours Faithfully,

9/ A Food Store be opened for four Mahalas
