III Overall assessment of visit and suggestions: Dard Gund is demanded
(The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.)

The village Kalka is located at a location that is not so far from the town. People are in bad need of quality water supply and is the major issue of the local populace. An interim relief is needed till while the filtration plant at Kalka under WSS Mantrigam (NRDWP) are completed. There is lot of potential to harvest water from many springs in the adjoining areas for which PHE is to be asked should be mobilized. During the visit it came to the notice of U/S that people were very hopeful of B2V1 and B2V3, but non-redirection of demands due to lack of funds made people less interested and non-participating. LADE short from NHPC for the development of area needs to be reviewed and made more accountable.
