

Back to the Village Report

(Format to be filled up by the Reporting Officer during
his/her two day visit to the Gram Panchayat)

A) DETAILS OF REPORTING OFFICER:

- i. Name: SA. Saritoid Kotwal
- ii. Designation: Chief Executive Officer, Municipal Council Udhampur
- iii. Department/Place of posting: Urban Local Bodies / Municipal Council Udhampur
- iv. Mobile No: 9906069789
- v. Email id: CEO Udhampur @ gmail.com
- vi. Home District: DODA
- vii. Dates of visit: 20/21/22/23/24/25/26/27 June 2019 24-06-2019

B) LOCATIONAL DETAILS OF GRAM PANCHAYAT:

- i. Name of the Gram Panchayat (GP): Meeli-Nallah
- ii. Local Government Directory (LGD) code of the GP: 240400
(To be sourced from Rural Development Department/ By DC)
- iii. Name of CD Block: Udhampur
- iv. Name of Tehsil: Udhampur
- v. Name of District: Udhampur

C) PANCHAYAT PROFILE:

- i. Name(s) of revenue villages in the Gram Panchayat:
1. Meeli Nallah 2. Nalla Kulona 3. Kupperchang
4. 5.
- ii. No. of hamlets in the GP: 08
- iii. No. of households in the GP: 487
- iv. Population (approx) of the GP: 2609
- v. Significant geographical feature of the GP (hilly/land/plateau): Hilly & plain
- vi. Key natural resources of the GP (forest/water bodies/minerals/others/None): Forest

CHARACTERISTICS OF WATER MANAGEMENT

1. Availability of water YES

2. Quality of water YES

3. Quantity of water YES

4. Cost of water YES

18
 1. Evaluate the soil covering the ground surface. Soil
 2. Explain the origin of soil from parent material. It is formed by weathering of primary and secondary minerals.

3. Describe the soil formation process. Primary and secondary minerals are broken down into smaller particles by weathering. These particles are then cemented together by organic matter and clay minerals to form soil.

4. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

5. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

6. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

7. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

8. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

9. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

10. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

11. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

12. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

13. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

14. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

15. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

16. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

17. Explain the soil formation process. It is the process by which soil is formed from parent material. It involves weathering of primary and secondary minerals, and the accumulation of organic matter and clay minerals.

IV	Urgent public requirements in order of priority (Max. 07):
	1. Demand of PDS outlet at Centre place of GP.
	2. Requirement of Community Toilet at Dhanni
	3. Desilting of Irrigation Canals and repair & maintenance of Check Dam at W. No. 8
	4. Immediate Restoration of Bold Bauli at W. No. 4 & Pond at W. No. 1 Chang.
	5. Construction of Road from Main road approaching to Gram Panchayat.
	6. Requirement of 100 No.s poles in order to tight the loose wire due to long distance.
	7. Requirement of 3 Nos. Additional Transformers for GP.
V	Any major complaint brought to notice:
	Major Complaint received during Back to Village programme are related to water supply, low voltage & identification and construction of B/wall for State land in GP.
VI	Overall assessment of visit (Public Services): Please mention best practices, if any, observed
	During the visit, it is found that most of the departments have performed well as per the availability of assets.
VII	Overall assessment of visit (Panchayat Functioning):
	Employees of Gram Panchayat i.e. GRS performed really well in the Gram Panchayat. They have done good job in Centrally Sponsored schemes like SBM(G) and PMAY(G).
