I) GENERAL ASSESSMENT OF THE VISITING OFFICER:

I	Any major complaint brought to the notice of the Visiting Officer: The area has been provided with a doctor, since last year, but it has been brought to my notice that the said doctor gets his salary disbursed from budnambal area, but has never so far now even visited the area. So, immediate action against the department of the said doctor is sought.
II	Major/ urgent public demand(s) that was/were reflected earlier but have not been addressed so far: The budnambal area consists of around 4000- people population & still devoid of cellular connectivity & internet facilities. So this must be taken as utmost obligation to provide the people with cellular connectivity. ① Immediate grant of water supply pipe
III	Overall assessment of visit and suggestions: (The visiting officer to ensure that the overall assessment is recorded in detail along with concrete suggestions.) Budnambal valley has a prospective scope of being provided with high density woodcuts, so that their economy may have time or future loan, & the area has good quality highland pastures, so cross bred merino sheep rearing should be encouraged & cross bred Jersey cows can be developed if semen is provided to the Veterinary Centre
