General Assessment B2V6 - 2022

(8)

In my opinion B2V is just imitating by the want to reduce the
governance and provide the services at the lower steps. There are need to
create lot of questions among the B2V program and great questions
create lot of questions. People of program has lot of expectations
with the existing team and one of the opinion that demands are
can be fulfilled at an earliest B2V program shows no the
Don-Bisopator; digitalization of India, the development and self-
employment. People very ^{are} agreed that the demands suggest
during B2V to B2V were not fulfilled. They said that no real thing
is taken of the programs. Though program has been taken by
road and various development activities have been taken by
RDS department to migrate the suffering of the people but it
is necessary under and under all the department work more
together for improvement of from poverty program
could be achieved. One of main feature of B2V program
digitalization of land record and implementation of various
services through digital means. I have noticed the program
as existing officer to work with missions to brought my program
as number one.

It is a new but plan which is being formulated in consultation with the local panchayat and general public. If implemented in true spirit the panchayat will become self-sufficient and a strong panchayat. Various issues raised by the Panchayat in relation to the village are given as:

Major Issues

- A. New building constructed for village Renta in 1992 during year 1995-1996 is not handed over to department and is locked. The new infrastructure is not being at the distance about 10 km from the village. The distance and condition of poor people is not as good as before. The reason for delay of handing over the building is not known to concerned agency.
- B. The non-availability of health centre for large population of village Renta. The nearest health centre is at the distance of 10 km.
- C. One of the major issues was that demands for provision of drinking water during previous B.P. programmes were not fulfilled.

Keeping in view all the issues on the above developmental plan was prepared for immediate action. Part of the work with details are given as under:-
