OVERALL ASSESSMENT OF THE VISIT AND SUGGESTIONS

As visiting Officer of the Panchayat Chewa in Back to village programme 5, I along with sarpanch, panches and departmental supporting staff visited various wards, Govt projects and offices in the panchayat Halqa on 10th and 11th Nov 2023. I also held discussions with the local citizens, held Gram sabha and made the following observations regarding the various aspects of the panchayat Chewa.

1. The major issue concerning and distressing the population is poor supply/ availability/ shortage of potable drinking water regularly in some wards and absolute non availability of water in other wards like Sher colony/Mohalla chewa. This is despite the proper laying of water pipelines in almost entire village. Reasons for such a poor state are attributed to nonexistence of a water supply scheme in the village or in near vicinity. In addition poor infrastructure, narrow pipelines, non upgradation and non-maintenance of tap water pipelines is also an attributed reason. Implementation of JAL JEEVAN mission scheme can resolve this water shortage issue. Presently 2 bore wells may be constructed in Sheer Mohalla to mitigate the absolute water shortage crisis.
2. Another grave issue which the public of Chewa village is facing is that of electricity supply. The power infrastructure in the village is very dismal. Wards like Sher Mohalla, takiya, laman, tengpora and few others don't have electric poles and durable wires for power transmission. The power wires are flown over trees and such other flimsy structures which pose a regular threat to the lives of the local population and their assets.

Moreover the transformers are insufficient to ensure the power distribution in the entire village. As visiting Officer my suggestion would be that the power lines are flown over standard electric poles. The obsolete power wires should be done away with and replaced by strong and durable wires. In addition more number of transformers should be provided in the panchayat.

3. Pathetic and deteriorated inner link roads more so in Takiya chewa and sher colony chewa do a very poor reflection of the inadequate govt infrastructure building initiatives in the village.

Tiling of footpaths, up gradation, metalling and macadamisation of inner link roads, construction of new roads at some locations is needed in the village to build convenient and better connectivity. Construction of road from main road chewa to Sher colony is an utmost necessity.

4. The Govt boy's middle school Takiya comprises of 3 deteriorated and unsafe rooms. The school is compressed in a very small area.

There is no playground, no assembly ground. In fact, besides the 3 rooms which are in extremely bad shape and structure, the school has no infrastructure. The school also lacks fencing. The

Students offer morning assembly prayer on a small road portion, which is often halted as any vehicle comes. It is extremely disheartening and tearful for me as visiting Officer to see children forced to take education in such unsafe and deteriorated structures. The school doesn't offer any scope of repairment and expansion owing to its very small area.

As visiting Officer I request the higher authorities to kindly look into this very sensitive issue and do the needful. As visiting Officer I felt the school needs to be shifted from its present place.

5. Most of the women in the panchayat are associated with Self Help Groups. There are 23 SHGs in the panchayat. My suggestion would be to impart skill training in various vocations to all the SHG group members.
6. The main link road in chewa from the house of Abdul Razaq peer upto Anganwadi centre remains waterlogged and totally submerged during rains making the pedestrian movement on it difficult and unsafe. It is as such suggested and highly requested by the public that proper drainage be laid on the road to sort out this issue.
